

GLOBAL FREERIDE

Serious Freeride Performance

Designed for easy freeride sailing and jibing, the Global Freeride combines a slalom oriented rocker line with a maneuver-friendly (rounder) outline. The result is a range of boards that plane early and go fast, yet handle well in windy conditions and offer jibing performance comparable to an All Terrain board. The Global Freeride is the optimum choice for riders who want the best of both worlds in terms of jibing and speed, and sail size compatibility.

- * SANDWICH WOOD DECK & BOTTOM
- * COMPOSITE FINS
- * FULL STANCE AREA TRACTION PAD
- * STOP-&-GO FEATURE
- * INCLUDES ECO BOARDBAG

SIZES: 85, 95, 105, 115, 130, 145

NAISH2010

VOLUME	LENGTH	WIDTH	FIN TYPE	SAIL RANGE
85	236	61	GF 32 POWER	4.0 - 6.0
95	240	62	GF 32 POWER	4.2 - 6.5
