

GRAND PRIX

Ultimate Freeride & Slalom Performance

The Grand Prix mates the technological heart of the test-winning Stealth with an easy-to-rig midwidth sleeve. The basic sail shape utilizes a new 3D mold that delivers powerful acceleration, blistering speed, and nearly endless control overpowered, and the highest tech lightweight materials in the industry. The result is race sail performance combined with freeride handling - the perfect sail for week-end blasters and anyone looking for maximum speed with minimum hassle.
